

Wabi-kusa Echinodorus Mix in a Plant Glass Cylinder 3010 in shallow water can create an ambience like waterside. It is also enjoyable to have small fishes like killifish.

In the new type of Plant Glass Polka (NEW) in a nice rounded form with diagonal cut, Rotala plants in their flower season bloom flowers ebulliently.

By arranging Wabi-kusa with Branch Wood which has interesting shapes of branches in a Plant Glass, it becomes like an ornament. Red Alternanthera plants bloom white flowers by their leaves.

The size of Wabi-kusa, Karen fits perfectly with Plant Glass Crock (NEW). Even in this limited space, aquatic plants grow day by day and give us a joy of seeing them.
